

Sarven Ornekian | Software Engineer

Los Angeles, CA | Willing to Relocate | 818-800-3220 | sarvornek@gmail.com | [GitHub](#) | [LinkedIn](#) | [Portfolio](#)

I am an adaptable and hard working Junior Software Engineer, who thrives under pressure and has a strong technical background, focusing on creating innovative digital solutions. I am highly motivated for continuous learning as I am looking for the opportunity to grow as a professional developer.

Skills

JavaScript, React, React Native, TypeScript, Node.js, Express, MongoDB, Mongoose, Python, Django, PostgreSQL, NoSQL, SQL, Git, GitHub, RESTful APIs, MERN stack applications, MVC/MVT architecture, Tailwind, SCSS, AWS S3, HTML5, CSS3, Docker, PowerPoint and Excel.

Relevant Experience

Frontend Developer | SpaceLab | March '23 - Present

- Currently integrating front-end components and enhancing user experience while contributing creative insights to elevate website design, functionality, and performance. [\[Link\]](#)

Software Developer | Hack for LA | October '23 - March '23

- Contributing to the open-source Hack for LA website by identifying, working on issues and submitting pull requests for review while using JavaScript and CSS technologies. At Hack for LA we help improve features for various nonprofit companies that are local to the Los Angeles area. [\[Link\]](#)

Full Stack Developer | The Opportunity Project | May '23 - August '23

- Collaborated with over 15 Software Engineers, UX/UI Designers, UX Researchers, Data Scientists and Data Analysts, led by the US Census Bureau, the US Department of Commerce and the FDA to create a React Native mobile application using TypeScript and Tailwind for at-home covid test reporting. [\[Demo\]](#)

Personal Projects

Plate Pilot:

- Built with React using the Mongo Database. This app helps those of us who are indecisive when choosing what to eat. [\[Link\]](#)

Armenian Professional Group:

- Built with React and Express, using the Mongo Database. This site guides Armenian professionals to connect with their community abroad and network with locals. [\[Link\]](#)

HyeMuscle Car Forum:

- Built with Node.js and Express technologies while tapped into the Mongo Database. Users can share threads and comments on topics related to old and new muscle cars. [\[Link\]](#)

Blackjack Card Game:

- Built with HTML, CSS and JavaScript, this card game is a classic yet refreshing take on blackjack. [\[Link\]](#)

Education

General Assembly | Software Engineering Immersive | Remote | December 2022 – March 2023

Psychology B.S. | California State University, Northridge | Northridge | August 2012 – May 2016
