

## Sarven Ornekian | Full Stack Software Engineer

Los Angeles, CA | 818.800.3220 | sarvornek@gmail.com | [GitHub](#) | [LinkedIn](#) | [Portfolio](#)

I am a Los Angeles-based Full Stack Software Engineer with a strong technical background and a focus on creating innovative digital solutions. Exceptional communicator, problem solver, and time manager, I thrive under pressure while maintaining a high level of accountability. My adaptability and commitment to continuous learning make me an asset in rapidly changing technology environments.

### Skills

JavaScript, React, React Native, TypeScript, Node.js, Express, MongoDB, Mongoose, Python, Django, PostgreSQL, NoSQL, SQL, Git, GitHub, RESTful APIs, MERN stack applications, MVC/MVT architecture, Tailwind, SCSS, AWS S3, HTML5, CSS3.

### Projects

#### Plate Pilot:

- Built with React using the Mongo Database. This app helps those of us who are indecisive when choosing lunch or dinner. [\[Link\]](#)

#### Community Test Lab:

- Built with React Native CLI, TypeScript and Tailwind. This solution aids test users in sharing standardized COVID-19 test results and enhances public health decision-making while building public trust. [\[Demo\]](#)

#### Armenian Professional Group:

- Built with React and Express, using the Mongo Database. This app helps Armenian professionals connect with their community abroad and network with local organizations. [\[Link\]](#)

#### Cosmic Companion:

- Built with Python and Django. Collaborating with 2 colleagues, users are able to track celestial events. [\[Link\]](#)

#### HyeMuscle Car Forum:

- Built with Node.js and Express technologies while tapped into the Mongo Database. Users can share threads and comments on topics related to old and new muscle cars. [\[Link\]](#)

### Experience

#### Front End Developer | Hack for LA October '23 - Present

- Contributing to the open-source Hack for LA website by identifying, working on issues and submitting pull requests for review.

#### Full Stack Developer | The Opportunity Project May '23 - August '23

- Collaborated with over 15 Software Engineers, UX/UI Designers, UX Researchers, Data Scientists and Data Analysts on 'The Opportunity Project', led by the US Census Bureau, the US Department of Commerce and the FDA to create a mobile application for at-home covid test reporting.

#### Digital Inventory Controller | Saro Lifestyle | Burbank, CA | July 2017 - December 2022

- Integrated a new barcoding system for 8000+ skus, which created a seamless way of keeping track of all company products.
- Increased employee productivity and in turn, company revenue by 27.8%.

## Education

**General Assembly | Software Engineering Immersive** | Remote | December 2022 – March 2023

**Psychology B.S. | California State University, Northridge** | Northridge | August 2012 – May 2016
